Overseas Marketing Department

June 9, 2025

To our trusted dealers and friends,

The implementation of the US government levied tariffs on imported goods has forced FRD.USA to raise prices starting Wednesday, July 9, 2025. It has always been our goal to provide an exceptional product at a competitive price, and this is an unfortunate reality.

Therefore, to show our appreciation for your business and loyalty, FRD.USA will absorb a portion of the imposed tariff on all Rock Drills, Breakers/Attachments, and Parts. These tariff increases will appear as “surcharges” on all invoices which will be broken down between whole goods and parts.

Rock Drill Division:

A **7% tariff surcharge** will be imposed on all rock drills that were received with tariff charges upon their arrival at US ports. Rock Drill parts will have a **5% surcharge** on all parts ordered after July 9, 2025.

Breaker/Attachment Division:

A **5% tariff surcharge** will be imposed on all breakers/attachments ordered after July 9, 2025. Breakers/attachments ordered between now and July 9 will not have tariffs applied, but will need to be delivered by Tuesday, September 30, 2025. Breaker/Attachment parts will incur a **3% surcharge** on all parts ordered beginning July 9, 2025.

It is our hope that the tariffs are only a temporary measure, and we can return to our original pricing once they are removed. Please don't hesitate to reach out with any questions or concerns.

Sincerely,

Manabu “Max” Masuda
President
Furukawa Rock Drill USA (FRD.USA)
